SUMMER INTERNSHIP OPPORTUNITY

Conservation Technician Intern

Location: Dutchess County Soil and Water Conservation District
2715 Rte 44, Suite 3
Millbrook, NY 12545
(845) 677-8011 ext. 3

General Statement of Duties:

Intern will assist field staff in the collection and analysis of field data in support of the Conservation District mission and programs. This internship will be focused on creating an inventory of culvert crossings in several watershed areas within Dutchess County. The data that will be collected will be used to identify undersized culverts that may have difficulty handling storm flows, as well as identify culvert crossings where there is habitat fragmentation.

Other types of duties could include, but are not limited to, surveying of a stream segment for bank stabilization/repair work, resource management practice designs to be incorporated into a farm conservation plan, design and installation assistance of dry hydrants for rural fire protection, creating educational material, assisting with hydroseeding projects.

Minimum Requirements:

Student interested in conservation, environmental and agricultural management and design;
Student in an Engineering, Engineering Technology, Natural Resources, or Environmental program preferred;
Drafting and/or surveying background helpful. GIS and ArcMap experience a plus.
Must have a valid driver's license.

Compensation: College Course Credit or Hourly Pay
